

Firearms Training Guide Launches New Membership Website

/EINPresswire.com/ Due to the mass school shootings and the rise of violent crimes more and more people are choosing not to become victims through [gun ownership](#). [Firearms Training](#) Guide offers basic firearms handling and training to first time gun owners for FREE.

Firearms Training Guide offers hard working husbands and wives a chance in [learning basic shooting skills](#) without having to spend hundreds of dollars on instructors. Due to the economic status now in days most blue collar working families don't have that kind of money to spend, especially after paying 450.00 dollars on a gun for personal protection. Most people also don't have time to waste looking for "how to shoot a pistol" on youtube and getting back 20 videos with 20 different answers. In the members area F.T.G walks all newbies through the whole process of gun ownership, from understanding what kind of gun is right for them, to shooting their brand new gun all in one place. The goal is to educate and give as much knowledge as possible to people in all walks of life, when it comes to firearms training, handling and safety. F.T.G offers all of this education to members for FREE. The only cost members pay, is a one time account setup fee of 2.50 for a lifetime membership, which includes firearms education given through content, pictures and videos, monthly giveaways of firearms gear and products, weekly blogs covering all the aspects of gun ownership, fresh content on a weekly basis and email support from certified firearms instructors in case any members have firearms training related questions. F.T.G was created with the concept of giving anyone the opportunity for protection or survival for themselves and their families, regardless of their economic status and day to day responsibilities.

About Firearms Training Guide: It is a membership website created by certified Law enforcement Firearm instructors that have over 30 years of Law enforcement and Military experience combined, and specialize in state certified firearms shooting instruction, and special weapons and tactical training.
