

Ahern & Associates, Ltd. celebrates 26 years of success as trucking, logistics and warehousing acquisition consulting firm

Ahern's expertise guides owners and principals in the transportation field in making informed decisions about acquisitions, sales, and other needs

/EINPresswire.com/ Phoenix, AZ –April 12, 2013 – [Ahern & Associates, Ltd.](#) will this year be celebrating its 26th year as a leading consultant for acquisitions, mergers, valuations and business planning to trucking, logistics and warehousing companies across the US. Led by CEO Andy Ahern, the company has grown exponentially each year and is regarded not only as a unique source for information about all aspects of the trucking, logistics and warehousing industries but also one that is well trusted. Ahern attributes the phenomenal success to placing the focus on building relationships within the industry. This has given the company an edge that puts it in a category of its own.

While the company plays a strategic role in arranging or negotiating sales and acquisitions, Ahern provides clients with information that assists them in making the best decisions possible about these processes. The Ahern Advisory Newsletter, Andy's personal advice and outreach newsletter to the industry has grown and changed over the years. It began as a quarterly newsletter with 300 readers and today, reflecting the massive success that Ahern & Associates has enjoyed is now a weekly publication with more than 455,000 readers. In addition, over the years Andy has expanded his efforts to include blogs and podcasts which are available on the company website to readers all over the world. Says Ahern, "All in all, it has been a very rewarding process."

Ahern & Associates, Ltd. has recently taken this one step further with the implementation of a crisis hotline that allows an instant, free consultation with one of Ahern's analysts for up to one hour. Users may discuss any issue and all communication is held in the strictest of confidence. Ahern created these resources as a way to give back to the community and to share news and information. 60% of trucking companies are between 1 to 99 trucks in size and because of the financial constraints that this places on them many are not in a position to engage Ahern & Associates directly. However, these companies still need help; and the crisis hotline in addition to being able to access the information from the newsletter and podcasts gives them a free and reliable source of information that Andy hopes will benefit the industry as a whole.

If you would like information about Ahern's services, please contact Ahern & Associates,
