

# 247inktoner Offers Customers Free Toner Cartridge Recycling Program

---

/EINPresswire.com/ 247inktoner, a Las Vegas-based supplier of printer ink and toner, announces the launch of its free toner cartridge recycling program.

247inktoner, the online printer ink and toner supplier, has announced the rollout of a new, free toner cartridge recycling program as part of the company's continuing efforts to better serve its clients, while also working to reduce the number of toner cartridges that pile-up in area landfills.

247inktoner carries a full line of genuine OEM and premium compatible laser toner cartridges, ink sticks and ink cartridges for all major brands of printing devices. Its compatible products can save customers up to 80% off the equivalent original manufacturer (OEM) pricing, while still making it possible to obtain premium print quality and page yield.

Now, 247inktoner clients can feel good about disposing of their spent cartridges in a cost-free, environmentally friendly way. Customers with at least eight used cartridges can contact the company to receive a prepaid shipping label to use to send in their spent toner cartridges for recycling. Not only is the 247inktoner recycling program convenient, it's also a completely cost free way to be more green.

"We feel very good about providing our clients with a convenient and completely free option for recycling used toner cartridges," said 247inktoner owner Calvin Yu. "We hope that they also feel good about having a much better option for disposing of these used items."

247inktoner may be an online company but that doesn't mean it can't provide its clients the same level of quality service as = larger box stores, many of whom also offer cartridge recycling programs. The company has created a new page on its website specially designed to assist clients in submitting a request to recycle old toner cartridges. Once a request has been submitted, 247inktoner clients will receive a free shipping label to be used when they send their spent cartridges back to the company for recycling.

All toner cartridges, even premium products, such as [Brother toner cartridges](#), will eventually run dry and, and all too often wind up in a landfills where they remain and become part of the environment for as long as it takes for its plastic components to breakdown, often tens of hundreds of years. The 247inktoner recycling program, however, makes it easy, convenient, and

totally cost free to recycle toner cartridges and to help the environment at the same time.

"We're very excited to offer this service to our clients, and to do our part to keep these old cartridges out of the landfills and into recycling centers where they can be transformed into useful products rather than adding to the pollution problem," said Yu.

An added benefit of the 247 inktoner recycling program is that the company's website operates 24/7 year-round, including holidays. This means that, regardless of what time of day it is, customers may order ink and toner cartridges from the 247 inktoner website and at the same time recycle their old cartridges without ever leaving their home. So, while 247inktoner clients save money on new ink, the company also makes it easy than ever to make ensure these non-biodegradable products don't become a permanent part of the landscape.

About 247inktoner: 247inktoner is an online supplier of genuine OEM and premium compatible laser toner cartridges, ink sticks and ink cartridges for all major printing devices. The mission is to offer customers the right ink and toner at the best possible prices, 24 hours a day, 7 days a week, including holidays. The company's inventory of compatible products makes it possible for customers to enjoy a savings of as much as 80% off original manufacturers' products, while still obtaining the same premium print quality and page yield. All 247inktoner products are stocked in a 25,000 sq. ft. warehouse, shipped the same day an order is placed and come backed with a 100% satisfaction guarantee and one-year warranty.
