

Announcing KZBluestar, A Brand New Property Alert Contact Service

/EINPresswire.com/ New service allows home and business owners to be contacted in the event of any kind of disturbance at their property, eliminating the need to distribute any personal numbers or multiple forms of contact information.

KZBluestar announces new property alert contact service

St. Petersburg, FL – Security systems can be extremely costly and complicated to install, and are often only effective when there is forced or unlawful entry to a structure. Home or business owners who are interested in being informed about a wider range of potential dangers or problems on their property now have an ally in KZBluestar, a new property, RV and [home watch](#) service.

KZBluestar picks up where most traditional security systems stop, by allowing property owners to be contacted whenever there is any sort of disturbance. Anyone who notices a problem with a home can contact KZBluestar who will then alert the owner as well as the proper authorities if necessary.

“We built KZBluestar with the knowledge that none of us can be everywhere at once. As valuable as property is, there are always going to be times when it’s left unattended. With KZBluestar, home and business owners, realtors, landlords or property managers nationwide can rest assured that once an incident with one of their properties is reported, someone from KZBluestar will be available to make sure the owner is made aware of the issue before it can escalate,” said Dave Kochis, owner of KZBluestar.

After registration, KZBluestar members are provided with an informational decal that is placed near the entrance to their home, property or RV which contains a contact number for KZBluestar and the owner’s unique account reference number. In the event of an emergency, disturbance or an event which might cause potential business or [home damage](#), anyone can contact KZBluestar with details about the problem and the company will notify the property owner, as well as any necessary authorities, at any of their provided numbers. Not only does this avoid the need to distribute multiple phone numbers, but also alleviates KZBluestar members from having to give out personal contact information to neighbors, acquaintances, or clients.

“Years ago we all knew our neighbors and could be fairly certain that they knew how to get in

touch with us if there was an emergency. These days it's not nearly as common that our neighbors will know how to reach us, especially if we're out of town, at work or otherwise away. At KZBluestar we want to ensure that you're never out of reach if there is a problem with your home, business or RV. From a garage door being left open, to much more serious and urgent problems like [water leaks](#) or vandalism, anyone can reach out to KZBluestar and know that you'll be contacted right away, no matter where you are. Utilizing our service means that everyone in your neighborhood has the opportunity to help you keep an eye on your property, not just the people you know well," Kochis said.
