

Nico Cosmetics Introduces New Innovative Anti-Ageing Skincare Range

/EINPresswire.com/ [Nico Cosmetics](#) have launched a new innovative range of anti-ageing skincare products. An exclusive range of non-invasive, luxury treatments, they include a diverse collection of highly effective ingredients that are designed to battle signs of ageing skin.

Nico Cosmetics have launched a new innovative range of anti-ageing skincare products. An exclusive range of non-invasive, luxury treatments, they include a diverse collection of highly effective ingredients that are designed to battle signs of ageing skin. A number of valuable ingredients are included within these skincare products mentioning Apple Stem Cell and SYN AKE as some of the most powerful in fighting common signs of skin ageing.

Created by a team of experienced professionals, all of Nico Cosmetics' products are dermatologically tested and have undergone extensive clinical testing to ensure the most highly driven, effective results. One of the treatments in their debut anti-ageing skin range is the Anti Wrinkle [Snake Serum](#), with active ingredient SYN AKE, a powerful anti-wrinkle compound. Providing spa-like results, this anti-wrinkle cream smoothes and decreases the appearance of wrinkles, including stubborn expression lines, making the skin appear younger, with a youthful and radiant glow. This breakthrough product is remarkably effective against the initial signs of skin aging, helping to extend the life of youthful looking skin.

Another notable product from this range is Nico Cosmetics' [Apple Stem Cell Serum](#) with Collagen. The serum uses stem cells extracted from a rare Swiss Apple, the Uttwiler Spatlauber variety, known for its remarkable ability to repair and heal itself. Combined with collagen, the Malus Domestica plant stem cell extract is extremely powerful when battling ageing skin given its ability to aid skin tissue repair and protect the skin from further damage. The addition of this natural ingredient to the serum regenerates the skin, helping skin look younger while feeling more toned and firm.

Other products in this breakthrough range include:

- Anti-Cellulite Formula with Caffeine and Retinol A, a highly effective combination of ingredients that drains toxins while improving the natural production of collagen and elastin.
- Moisturising Day Cream, containing powerful anti-ageing duo DMAE and Ronacare VTA.
- Moisturising Night Cream, a rejuvenating night formula, also containing DMAE and Ronacare VTA.
- Natural Cleansing Melt, a hydrating cleanser containing natural essential oils.
- Perfection Primer, a long lasting, silky gel base that is suitable for sensitive skin.

Nico Cosmetics are a cutting edge debut UK brand creating innovative, results-driven beauty treatments for the skin and body. Together with a leading UK supplier, their team of experienced and innovative professionals are creating an ever-growing range of products that are expected to be released over the coming months.
