

# Fence Outlet Offers Customers Wide Variety Of Products – From Wood To Vinyl To Steel

/EINPresswire.com/ Fence Outlet urges consumers to consider the importance in choosing the appropriate product.

Fence Outlet, Central Florida's fencing experts, showcases a wide variety of fence products, each offering distinct advantages. With a combined 48,000 square-feet of showroom and inventory of [fencing supplies](#) in three Central Florida locations, Fence Outlet offers fences made out of either vinyl, aluminum, steel, wood or chain link.

"While price and appearance are often important initial considerations when choosing a fence, consumers also need to understand the inherent characteristics of each fence material," explains said Fence Outlet owner & founder, Rajul Patel. "For example, vinyl is extremely low maintenance, while steel offers strength and security. So, it is also important to consider why you are installing a fence, what it is protecting and of course its ultimate purpose."

Fence Outlet strives to locate and stock "Made in America" [wood, vinyl and aluminum fencing](#) products. "We are proud to say that 95 percent of our fence products, including our PVC, are made in the USA," said Patel. "And, it's important to point out that consumers should be aware of buying imported PVC fence products. They are not necessarily manufactured to the same specifications as domestic manufacturers."

Below are descriptions of fence materials that we stock:

- Vinyl/PVC Fencing Material– Offering low maintenance, vinyl is a durable product will not rot, peel, rust or turn yellow or brittle (like the old PVC patio furniture of the past). Offering a lifetime warranty, vinyl fencing is the practical replacement for wood.
- Wood Fencing Material – The natural beauty of wood is popular in Florida. Fence outlet offers classic wood fences in both cypress and pressure treated pine, which are made in America. Fence Outlet highly recommends cypress as it is native to Florida and handles a wet-to-dry climate. It requires no chemical treatments and is naturally resistant to termites and insects.
- Ornamental Aluminum Fencing Material – Also very popular in Florida, aluminum doesn't rust like steel but allows the property owner to obtain that coveted "estate look." Offering a lifetime warranty and minimum maintenance, ornamental aluminum fence can be customized in a

variety of colors, grades and styles.

- Welded Steel Fencing Material – Offering strength, security and durability, steel is especially suitable in industrial and commercial applications. Fence Outlet's welded steel fences are suitable not only for residential users but also for commercial applications such as retail businesses, storage facilities, schools, golf courses and recreational parks.
- Chain link Fencing Material – Long-lasting chain link fences are ideal for spacious yards, pet owners, large commercial spaces, big back yards and other wide-open areas that need protection. Chain link is available in galvanized or vinyl coated finishes in black, green and brown. The advantages of chain link are that is both economical and long lasting.

Fence Outlet's showrooms in Orlando, Oviedo and Tampa offer all of these products, plus arbors and gate openers. Many customers also turn to Fence Outlet for professional, timely and quality [fence installation](#). "Our team will help you measure your project and assist with ordering all the materials on-line," said Patel. "Then, you can turn the entire professional installation over to Fence Outlet for a complete turnkey project."
