

New Green Paper from IT Governance clarifies PRINCE2®

/EINPresswire.com/ [IT Governance Ltd](#), the leading experts in project management and governance issues, has released a new fact sheet to simplify [PRINCE2®](#).

“PRINCE2 – A Fact Sheet” is the latest in a series of new titles in development, designed to help customers understand governance problems and find appropriate solutions. It is available for immediate and free download from www.itgovernance.co.uk/green-papers.aspx.

PRINCE2 is one of the world’s most popular project management frameworks. It is used by major organisations, including Disney, HSBC and the NHS, as well as thousands of much smaller ones in both the private and public sectors. Through its scaleable and controlled approach, PRINCE2 can help organisations achieve greater levels of efficiency when managing projects.

This new briefing paper provides an expert introduction to the framework, explaining the approach it advocates and the benefits it can bring. This is followed by a concise overview of the training programmes that are recommended to create knowledgeable, skilled and effective project managers.

[IT Governance’s Green Paper library](#) now contains 30 downloads covering subjects as diverse as information security, project governance, green IT and social media. They combine the expert subject-matter knowledge of IT Governance’s consultancy team with an understanding of customer’s frequently encountered problems to create value-adding, useful documents for information security professionals and business practitioners.

The free green papers can be downloaded from the IT Governance website at: www.itgovernance.co.uk/green-papers.aspx.

NOTES TO EDITORS

IT Governance Ltd is the single-source provider of books, tools, training and consultancy for IT governance, risk management and compliance. It is a leading authority on data security and IT governance for business and the public sector. IT Governance is 'non-geek', approaching IT issues from a non-technology background and talking to management in its own language. Its customer base spans Europe, the Americas, the Middle East and Asia. More information is available at www.itgovernance.co.uk.
