

# Commodore Homes Introduces "The Castellet" Home Design In Sienna Wood Estate, Hilbert

/EINPresswire.com/ PERTH, WA -- [Commodore Homes](#) has unveiled its latest family-friendly home design. "The Castellet" display home is now open to the public in Sienna Wood Estate, Hilbert. This versatile home has been designed with today's modern family in mind with plenty of features that make daily life a little more pleasurable.

From the outside, The Castellet draws the eye immediately with a stunning street presence. A traditional design, complete with gabled roof, covered porch, planter box and stone accents; the home is the perfect combination of traditional charm and modern-day features.

Family home builder Commodore Homes has a new display home available in Sienna Wood Estate, Hilbert: The Castellet. The newest display home is offered as part of the house and land packages in Perth.

"The Castellet has a little bit of everything. There's a master suite to give Mum and Dad a haven from the hustle and bustle of family life but also an open floor plan that allows families to come together and connect in their daily activities," noted Tony Harvie, Brand Manager at Commodore Homes ([www.commodorehomes.com.au](http://www.commodorehomes.com.au)).

The master suite is located immediately to the left of the entryway and is spacious enough for a feature chair and bookcase. A dressing room provides plenty of storage space through integrated shelving while the en suite features an oversized shower and a double basin vanity. Master suites are a signature component of Commodore Homes designs, found in nearly every design offered by the family-focused builder.

Along with the master suite, The Castellet features both a home cinema and a reading room for family relaxation time.

"The reading room is the most versatile room in the home. It can serve as an office for a home-based business or for personal use, a children's study area, play room or web zone, a music

room or it can serve as a full library. It's a highly adaptable room that will meet different needs for different families," said Harvie.

The remainder of the home follows an open plan design with a gourmet kitchen, living and dining area blending seamlessly into each other and opening to an alfresco. This open plan design allows families to go about their daily activities but still be within easy conversational distance of each other. It also makes The Castellet suitable for entertaining parties both large and small. If more space is needed, doors to the alfresco can be opened to add more space while the open plan living area allows everyone to remain within speaking distance of each other.

The minor bedrooms are generous in size, located along the left side of the home and connect via a shared bathroom. Oversized storage space near the laundry keeps all of life's essentials safely stored away when not in use, freeing up space in the attached garage.

The Castellet is available as part of Commodore Homes [House and Land Packages in Perth](#). Priced at \$229,990, The Castellet is available with a Lifestyle Series option from \$179,990.
