

Commodore Homes' Design, The Fernley, Proves To Have Wide Appeal Among Home Buyers

/EINPresswire.com/ PERTH -- [Commodore Homes](#) introduced The Fernley in New Haven, Harrisdale six months ago and interest in the new home design has only increased. The Fernley features an open living floor plan, complete with a master suite, alfresco and gourmet kitchen on a 13m wide block with prices starting at \$149,993. The display home price is \$205,462.

"The Fernley has proven popular because it offers everything a homebuyer could want in a compact package. There are luxury touches that all buyers appreciate such as the china basins and the master suite, but it's all available in a smaller design," said Tony Harvie, Brand Manager of Commodore Homes (www.commodorehomes.com.au).

Commodore Homes reports continued interest in and demand for its New Haven, Harrisdale display home, The Fernley. A compact size, affordable price point and thoughtful design have made The Fernley one of the most sought-after house and land packages in Pe

One reason The Fernley is so popular can be credited to the versatility of the open living design. The floor plan allows families to come together in a central living area, comprised of the kitchen, dining area, living area and alfresco. This open area is as perfect for growing families as it is for downsizers who have moved beyond the child-rearing years and now like to host friends and family.

With the master suite located at the front of the home and minor bedrooms towards the rear, The Fernley offers privacy too. The minor bedrooms are generously sized which makes them large enough to serve as a study, home office or activity room instead of a bedroom. What is perhaps most impressive is the fact that Commodore Homes was able to incorporate all of these features into such a compact package.

"The Fernley is a definite move away from the larger blocks of the past. We've found that many of our buyers are less interested in the maintenance and upkeep a larger home requires. They

want affordable homes that fit their lifestyle rather than dominating it, but they don't want to give up entirely on luxurious touches. The Fernley is our solution to those traditionally opposing wishes," noted Harvie.

The Fernley is available as one of Commodore Homes' [house and land packages. Perth](#) and the surrounding suburbs are home to many of the family-friendly builders' designs which feature thoughtful, affordable, open plan living designs coupled with unexpected smaller touches of quality. Master suites, recessed theatre ceilings, gourmet kitchens and versatile living spaces are commonly incorporated into Commodore Home designs.
