

# Night Flight Concepts Launches Industry Specific NVIS Solution Programs

/EINPresswire.com/ Night Flight Concepts, the premier provider of [night vision solutions](#), is pleased to announce the launch of five new industry specific solutions programs.

Night Flight Concepts, the premier provider of night vision solutions, is pleased to announce the launch of five new industry specific solutions programs. These new [Night Vision Imaging Systems](#) (NVIS) solutions include equipment, maintenance and training programs which have been adapted to support the specific operational and regulatory requirements for the following markets:

- Emergency Medical Services and Search & Rescue
- Law Enforcement and Homeland Security
- Military
- Aerial Firefighting
- Civil Aviation

"The solutions programs allow us to focus on the specific needs and requirements of the different key market sectors," stated Adam Aldous, Night Flight Concepts President & CEO. "By adapting our training, maintenance and equipment offerings, Night Flight Concepts is better able to support each market sector and provide the optimal solution for their varying needs and requirements."

Each solutions program addresses the specific NVG training requirements to best support the daily tasks and activities encountered by pilots in their market sector. [NVG equipment](#) has been modified and maintenance schedules adjusted where needed to ensure all meet the regulatory requirements for their market sector and receive the proper maintenance support to counter-act the average wear-and-tear typical of the field.

With specific solutions created to address each of the five main market sectors, the Night Flight Concepts programs have been tailored for the specific training, equipment and maintenance needs of each market, ensuring that each group's specific needs and requirements are

addressed.

About Night Flight Concepts ([www.nightflightconcepts.com](http://www.nightflightconcepts.com) )

Night Flight Concepts assists organizations from around the globe, providing comprehensive night vision solutions featuring training, equipment, maintenance services, and consulting options.

Night Flight Concepts was formed in 2006 by experienced civil and U.S. Army aviators, maintenance technicians, and safety officers. The company has over 50 combined years of aviation experience and performed flight operations around the globe and in all environments.

Night Flight Concepts was formed to meet the challenging need and continuing growth of night vision goggle (NVG) operations within the United States and abroad, particularly for law enforcement agencies, air medical/rescue services, military organizations, and government task force agencies; our "First Responders."
