

Kids BulletProof Backpacks Now Available at TacticalGearOps.com

/EINPresswire.com/ TacticalGearOps.com is proud to announce its partnership with leading kids bulletproof backpack supplier.

TacticalGearOps.com is pleased to announce its partnership with one of the leading bulletproof backpack suppliers in the nation, BulletBlocker. BulletBlocker's products were created by a real-life father and an Army Ranger trained as a firearms instructor with over a decade of law enforcement experience. He developed these products after searching for a way to provide a higher level of safety for his two school-aged children. In early August of 2007, "My Child's Pack" was invented by Joe Curran and introduced to the public.

TacticalGearOps recently launched several months ago and is quickly becoming one of the leading outlets for tactical gear as well as a supplier of ammunition. Over the past few months TacticalGearOps has seen a surge in ammunition, in particular [9mm ammo](#), from the recent political debate among law abiding gun owners and gun control advocates.

With the recent tragedy, TacticalGearOps made the decision to include [kids bulletproof backpacks](#) for those parents feeling they need additional security for their loved ones.

The site also features [bulletproof vest](#) for both security personnel, law enforcement, and your everyday consumer. All of the products are custom made and are made right here in the USA by BulletBlocker so you know quality is never compromised.

The site also has a detailed explanation about the different levels of protection each body armor provides.

TacticalGearOps provides a one stop shop for ammunition and accessories for handgun owners around the United States.

Inventory online includes scopes, cases, safes, ammunition, and more. For the latest in stock items, please visit them online at <http://tacticalgearops.com>
