As consumers and small business owners rely more and more on their mobile devices, Signature Bank has come up with a safe and quick way for their clients to complete a whole range of banking tasks from their smart phones.

"The new technology benefits our clients in many ways," said Signature's Director of Operations Debi Davidoff. "Using your web browser, you can check your account balances, review transactions, transfer funds and pay your bills. If you have an iPhone or Android, you can download a Mobile App and, among other things, receive turn-by-turn directions to our financial centers. You can also use your built-in camera to [deposit checks from anywhere](#), anytime."

Among other features, clients can also receive text messages when their account balance reaches a certain dollar amount.

"We love seeing and interacting with our clients in person," said Freddie. "But if you can't make it to the Bank, we'll happily bring our special brand of personal service to you."

Signature Bank's mobile banking products are quick, easy, convenient and customized for today's lifestyles.
