Pre-owned Cadillac automobiles are one of only a handful that retain their value, even years after initial release. This retention power makes them a sound investment for anyone looking for Cadillac luxury at an affordable price. The most recent announcement about enhanced warranties has now made pre-owned Cadillac's even more appealing.

Not only does the new extended warranty offer mechanical coverage, but it also provides a three month subscription to On-Star service, as well as SiriusXM Satellite Radio and 24-hour roadside assistance.

“The enhancements that have been made to the Certified Pre-Owned Cadillac’s warranties provide benefits that other pre-owned vehicle models do not,” stated Kevin Giguere at Orlando Cadillac. “These enhancements only add to the incredible sustainability and reliability of the Cadillac brand.”

With the new warranty additions, the total cost of ownership of a new Cadillac is more than most consumers can afford, which has made the leasing option for these luxury vehicles extremely popular. This option has left a wide array of pre-owned models available for purchase. With the recent enhancement of benefits of pre-owned models it has not only made a purchase feasible, but also smart. The purchase of a pre-owned Cadillac means no depreciation when the car is driven off the lot, as well as a maintenance warranty that will provide service when needed.

Cadillac estimates that a higher number of leased luxury vehicles than usual will be returned this year, making it the perfect time for a pre-owned purchase. With over 100 years of service, the durability of the brand alone is a driving factor for the continued popularity of both new and pre-owned models.
