/EINPresswire.com/ (Submitpressrelease123.com - press release) Provillus is the powerful blend of natural herbs which promotes the natural hair regrowth and prevents hairs from falling. Poor diet, stress, atmospheric pollution and many other factors damage hairs and make them fall. Scientifically health experts found that it is a hormone called DHT which is responsible for hair loss. The increased amount of DHT hormone let the hairs fall from scalp. It grows at the scalp and blocks the food and water going to the hairs. This practice shrinks hair follicles making them weaker and weaker until they die and fall from scalp.
