

Comarch and SIX Financial Information announce cooperation

/EINPresswire.com/ Comarch is teaming up with SIX Financial Information to provide clients with comprehensive and high quality reference and market data.

SIX Financial Information, a premium provider of global financial information, is partnering with Comarch, a leading Central Eastern European (CEE) vendor of IT solutions to investment companies. This new partnership enables clients in the CEE region to benefit from best-in-class data usage models. The resulting comprehensive coverage ensures the financial information needs of all stakeholders are met efficiently and with ease of use supporting investment processes, fund administration, as well as investment advisory and reporting.

‘Comarch supports dozens of investment companies, which find access to market data critical for continuity of operations, risk management and reporting obligations. Additionally, depending on the business area, customers need both real-time data and static information available at the end of the day. These data relate to different asset classes and include numerous types of information and markets. SIX Financial Information meets above mentioned requirements by providing data in a normalized stream’, underlines Grzegorz Prosowicz, Business Development Manager at Comarch responsible for Capital Markets.

‘We are keen to further develop this strategic relationship with Comarch – a company with vast experience in the CEE region. With our initiative in Germany, Austria, Poland and the growing CEE financial markets, we can provide client-oriented service by combining a local presence with global reach. This cooperation enables us to strengthen and expand our market share in this region and reach a growing number of clients’, says Michael Frank, Managing Director of SIX Financial Information Deutschland.

SIX Financial Information is a leading global provider of data services and solutions for financial and insurance firms, corporations and the media. Aggregated in real-time from over 1,500 worldwide sources, SIX’s financial information is comprised of corporate actions, pricing, reference and market data for over 11 million instruments and is unique in terms of information depth, breadth and structure. With offices in 23 countries, SIX combines the advantages of local expertise with global reach to offer comprehensive data services for investment advisory,

portfolio management, financial analysis and securities administration professionals. Financial Information is one of four business areas of SIX which offers global premium services in securities trading, clearing and settlement, payment transactions, and financial information. Further information is available at: six-financial-information.com.
