

# Boy Next Door's Memoir, 'Look Mom...I'm a Teenage Drug Lord' Exposes Suburban America's Worst Fears

DALLAS, TEXAS, June 4, 2013 /EINPresswire.com/ -- Just in time for the summer reading season, a new book, "Look, Mom...I'm a [Teenage Drug Lord](#)" provides an entertaining, insightful, and fascinating journey into the real world of illegal recreational drugs in suburban America.

On the outside he was a normal teenager. He attended class. Did his homework. Hung out with his friends. But that was just a cover. Because in a new book, "Look, Mom...I'm a Teenage Drug Lord" readers can join Author [Lance Green](#) on a non-stop, wild ride of all-night parties, police chases and Mexico drug deals gone horribly wrong. And all while he fooled friends and family masquerading as a normal teenager.

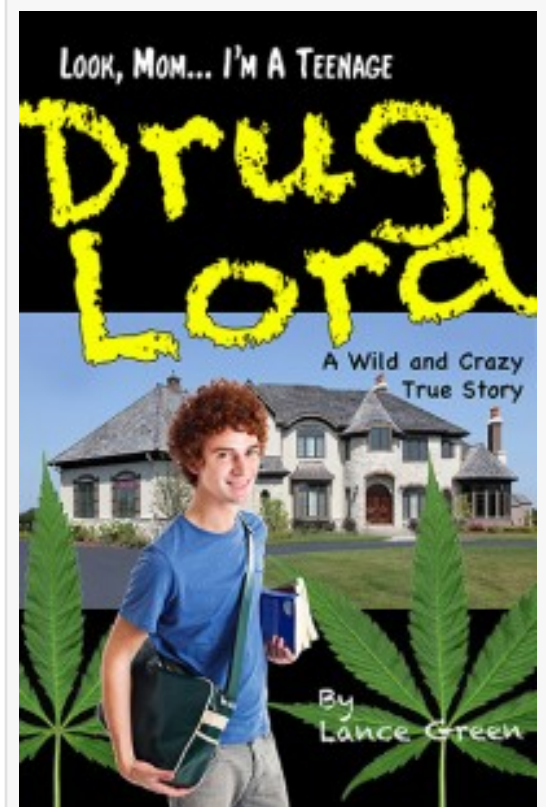

And it's all true.

"Look Mom...I'm a Teenage Drug Lord" is the incredible but true story of a teenage genius from wealthy suburbia who stumbles into running an illegal drug empire.

"Think of this book this way: the TV show Weeds meets the movie Ferris Buehler's Day Off," said Leann Garms, of Build.Buzz.Launch. Media and Publishing, who brought the book to market. "We have changed the names to protect the guilty, but this story is true."

"I really had no reason to sell drugs," said Lance Green, a pen name. "Coming from a wealthy family, living in a suburban "bubble", I didn't need the money," said the author. "I accidentally stumbled into it. I started smoking weed in high school and a friend of mine convinced me to sell small amounts of pot – it grew from there. "

"One reason I kept doing it, was there were no consequences," said Lance. "My parents were really cool, if you want to call it that. I've been arrested 17 times... but when you come from a

Shocking memoir about a teenage genius turned illegal recreational drug dealer in the heart of suburban America.

family that can afford attorneys, make your discretions go away, there are no consequences." At least not at first.

While a lot of this is humorous, there are some scary, life-or-death events revealed throughout the book. "From the wild parties, smoking marijuana in the open garage of upper class suburbia, to running drugs in Mexico, dealing ecstasy and cocaine, my character changes throughout the book and my attitude changes as well," says Lance. "A world without consequences can only last so long."

And consequences he has suffered. First, with a felony charge for cocaine on his record that will dog him for the rest of his life. Even worse are the physical consequences – his pancreas is shot from all the drinking and drugging.

Lance Green is not the only teen turned drug kingpin. The Huffington Post ran a story about another teen, Tyler Pagenstecher, who pleaded guilty to drug-trafficking charges in juvenile court in Ohio: [http://www.huffingtonpost.com/2012/08/02/tyler-pagenstecher-teen-marijuana-dealer\\_n\\_1734201.html](http://www.huffingtonpost.com/2012/08/02/tyler-pagenstecher-teen-marijuana-dealer_n_1734201.html)

When asked why he wrote this book, and what outcome he hoped to achieve from it, Lance shared, "When I went before the judge to have my records sealed after doing everything the court asked, I was denied. So I decided if I was going to be penalized, I might as well let the world know what really happens in wealthy suburban America. It's a story that should be told," he adds.

"Regardless of your actions, at the end of the day, you will be held accountable. And I wanted to let the world know what is really going on in wealthy, suburban high schools and neighborhoods."

According to Lance, "The person your son or daughter is buying drugs from is not the guy from the ghetto. It's probably your kid's rich friend - that you really like." Lance was always popular with the parents.

So how does Lance's story end? Today, the author is a successful businessman, working in a prestigious, high profile firm. Back then, he was a straight-up Drug Lord.

Because he now enjoys legitimate, professional success, the author used a pen name and changed the names of the characters in the book. "I didn't want to be judged by my past, and I also wanted to protect the companies I work for," he said.

Remaining anonymous as the author presents some marketing challenges for Lance and his book. A book signing wearing a mask? Not really practical. For that reason, the majority of exposure will happen online, through Virtual Book Tours and on radio shows. "Look Mom...I'm a Teenage Drug Lord" is currently available in paperback and eBook form.(Kindle.) Discover
