

FilterAttack.com Launches DDoS Protection With Instant Activation

FilterAttack.com announces their Instant Activation on services with no extra charge.

NEW YORK, NY, June 4, 2013 /EINPresswire.com/ --

FilterAttack.com, a [DDoS protection](#) provider, announces their Instant Activation on services with no extra charge.

Unlike any other [Anti DDoS](#) providers, FilterAttack.com offers instant activation on Protected Proxy for Web applications and Websites, Protected Cloud Servers and [DDoS Protected VPS](#), as well as affordable prices on every plan, which adjust to any need and budget. FilterAttack.com's DDoS Protection Verified Seal makes attackers aware that the target website is fully assisted.

Advance DDoS Attack Protection

“

Distributed Denial-of-Service attacks have expanded and gotten worse because attackers have sufficient resources available to affect your online business.”

*Jorge Moreno,
FilterAttack.com's CEO*

“Distributed Denial-of-Service attacks have expanded and gotten worse because attackers have sufficient resources available to affect your online business”, said Jorge Moreno, FilterAttack.com's CEO. “That's why FilterAttack.com has launched a variety of services that will protect you during an attack”.

FilterAttack.com provides DDoS Attack Protection Services that will prevent slow network performance, unavailability of user web sites, email service interruption, disconnection of Internet connection and other limitations suffered

under an attack. In the event of an attack, the system automatically starts filtering it after a few seconds, avoiding any inconvenience.

About FilterAttack.com

FilterAttack.com is a service provider with more than a decade of experience in the web hosting industry, as well as a variety of services such as shared hosting, virtual private servers, cloud servers, dedicated servers and server collocation, with technical support available 24/7 providing 99.9% network uptime.
