

Softshield 360 Provides a Sleek Protection for iPads and tablets

A versatile protective shell for iPads & tablets. Rugged, soft, flexible, and sleek. Perfect for kids, at school, work, & just about anywhere.

LOS ANGELES, CALIFORNIA, UNITED STATES, June 5, 2013 /EINPresswire.com/ -- [Softshield 360](#) is providing touchscreen users, big or small, a sleek protection for their iPads and tablets with the company's latest line up of tablet protective accessories. Softshield 360 created a versatile [protective shell case](#) for iPads and tablets for various usages and working conditions, from kids at pre-school to men at the construction site.

Softshield 360 a start-up company located in Los Angeles, California concentrates into iPads and tablets protection accessories was recently featured on <http://trndnation.com>. Experienced in engineering and design philosophy of blending material, geometry, ergonomics, and aesthetic with functionality, created the Softshield 360 that provides a 360° shield of soft protection. A protective shell case made from a rubber-like dense foam material called EVA (ethylene vinyl acetate). An extremely versatile product used in a variety of everyday applications; from slippers and sandals, padding in equipment for various sports, to health care orthotic supports and cervical collars.

[The protective shell case](#) is design to provide iPad and tablet users' best ergonomic protection they need for their gadgets. Design for maximum protection from bumps, scratches, and smudges for everyday routine activities in a typical working environment. This will allow people to bring their tablets wherever they want. It's rugged, soft, flexible, and sleek. That makes it perfect for kids, at home, school, office, work, and just about anywhere. Inspired by his 2 kids, Darvin the designer envisioned the SoftShield as a valuable product to keep the iPad safe from the mishaps of child play.

Softshield 360 was made with eco-friendly materials, scratch resistant, easy to clean, lightweight, and washable, making it ideal for pre-schoolers and kids. Every part of the shell case has a unique function and was designed with ergonomic consideration. The four sides, two carrying handle and two graspable sides, act as a buffer against side impact. The two graspable sides have a slotted space for a stylus pen or similar sized device. The back has a protruding spherical bump for added impact protection and will prevent the case from lying flat. Softshield 360 will soon be offering sleek and flexible protective case for other tablets and regular iPads. Although there are many protective cases that are now available in the market,

only Softshield 360 gives the ultimate protection with sleek design making it versatile wherever it may be.
