

# ISO 27001 Certified ISMS Lead Implementer course comes to Manchester in June

ELY, UK, June 10, 2013 /EINPresswire.com/ -- [IT Governance](#), the global information security and ISO 27001-compliance experts, have announced that they will hold their highly popular three-day ISO27001 Certified ISMS Lead Implementer course in Manchester on 25-27 June 2013. Place can be booked online here: [www.itgovernance.co.uk/shop/p-713.aspx](http://www.itgovernance.co.uk/shop/p-713.aspx)

With most courses of this type taking place in the London area, this course represents an excellent opportunity for organisations based in the north of England to save time and travel expenses. It is ideal to train staff in the implementation of an information security management system (ISMS) that is compliant with the international [ISO 27001 standard](#).

Ever more organisations are using the information security standard ISO 27001 as best practice for improving their cyber security defences and for demonstrating to customers and suppliers that their confidential information is secure.

Understanding the implementation process and choosing an approach that meets the needs of the organisation can be challenging. Professional training helps implementers gain the knowledge, skills and confidence necessary for completing the project successfully.

Completion of the ISO 27001 Certified ISMS Lead Implementer course and successfully passing the 40 question classroom-based exam will earn delegates an official Certified ISMS Lead Implementer (CIS LI) qualification awarded by [IBITGO](#) as well as 21 CPD/CPE credits.

Places on the ISO 27001 Lead Implementer course can be booked online (for both Manchester and London) at [www.itgovernance.co.uk/shop/p-713.aspx](http://www.itgovernance.co.uk/shop/p-713.aspx).
