"Our buying power consistently earns [A Better Way Wholesale Autos](#) the ability to bring our vehicles to market priced well below all other dealers," says Jesse Brown, Marketing Director of [A Better Way Wholesale Autos](#) (<http://www.abwautos.com>).

"The companies and financial institutions we buy from are able to give us excellent pricing because we buy in bulk. Because of our volume purchasing power, we consistently buy cars at under-market wholesale prices, which enables us to pass along savings to our customers, often times resulting in a customer paying thousands less for a pre-owned vehicle at A Better Way than they would at our competitors," adds Brown.

Because A Better Way Wholesale Autos in Naugatuck purchases many of their cars from fleet sales including leased vehicles or bank-owned vehicles, the dealership is able to purchase a large selection of low-mileage late model vehicles. Every vehicle purchased goes through a rigorous NAPA safety inspection to ensure that every pre-owned car sold is in superior working order. The dealership also provides all levels of mechanical repair service on-site from ongoing maintenance such as regular oil changes to mechanical and electrical issues that may arise.

A Better Way Wholesale Autos carries a large inventory of pre-owned cars, trucks and SUVs, with more than 500 on the lot at any given time. The company's website has an advanced vehicle search that allows consumers to see the dealer's inventory and search for cars, trucks, vans and

SUVs by make, model, year, price, mileage, color, transmission type, engine size and fuel type.
