

# Flash Memory Summit Announces the Opening of Registration for 2013 Event

---

SANTA CLARA, CA, June 19, 2013 /EINPresswire.com/ -- Flash Memory Summit brings together top flash memory technologists and business leaders to discuss technical advances, applications, vertical markets, and emerging trends.

Registration is open for the 2013 Flash Memory Summit, to be held August 13-15 in Santa Clara, CA, Conference Concepts announced today. The annual event brings together top flash memory technologists and business leaders to discuss technical advances, applications, vertical markets, and emerging trends.

"We have seen a greatly increased level of enthusiasm from speakers, [sponsors](#), exhibitors, and attendees for this year's event," said Lance Leventhal, Program Chairperson. "We look forward to new topics and new approaches that will provide participants with the information they need about this fast-changing area."

The conference will host more than 250 distinguished program participants, including leaders in technology, marketing, and business, plus analysts, press, and consultants. Prominent [keynote](#) speakers include Jason Taylor of Facebook, Gary Gentry of Seagate, CEO Rado Danilak of Skyera, Rob Crooke of Intel, Ed Doller of Micron, Gary Huff of LSI, Zahid Hussain of EMC, Kushagra Vaid of Microsoft, CEO Scott Dietzen of Pure Storage, and CEO Don Basile of Violin Memory.

Major topics for this year's Summit include:

- NVMe and PCIe SSDs
- Enterprise SSDs/SSD Technology
- Flash below 20 nm.
- Controllers
- Error-correcting codes
- Application acceleration with SSDs

The Summit will also feature a Beer Pizza session where attendees can ask questions of experts on specific topics, a market research session with leading analysts, and a VC Forum with top VCs discussing entrepreneurial opportunities. About Flash Memory Summit

Flash Memory Summit, produced by Conference ConCepts, showcases the mainstream applications, key technologies, and leading vendors that are driving the multi-billion dollar non-volatile memory and SSD markets. FMS is now the world's largest event featuring the trends, innovations, and influencers driving the adoption of flash memory in demanding enterprise storage applications, as well as in smartphones, tablets, and embedded systems. The 2013 event takes place on August 13-15 at the Santa Clara Convention Center in Santa Clara, California.
