

Movex Industrial Extraction Arms Added to Systech Air Pollution Control Line

EXTON, PA, June 25, 2013 /EINPresswire.com/ -- Industrial ventilation specialist Systech has expanded its industrial air pollution control line with a line of innovative extraction arms from [Movex](#). This addition enhances Systech's offering of air pollution control solutions for industrial and laboratory environments.

Industrial ventilation specialist [Systech Design, Inc.](#) is pleased to announce the expansion of its air pollution control equipment line with the addition of Movex industrial and laboratory extraction arms. Systech's alignment with Movex will provide the company with the necessary equipment for a wide array of industrial applications requiring source capture and extraction.

Movex Extraction Arms From Systech

Movex is a domestic subsidiary of Fumex AB of Sweden, with over 40 years of experience in developing technology for the source capture of airborne pollutants. Headquartered near Bethlehem, PA, Movex warehouses a comprehensive line of industrial and laboratory grade arms. The Movex line includes extractors for removing weld smoke and harmful fumes in industrial environments, airborne pollutants in laboratory and pharmaceutical settings, as well as applications related to removal of vehicle exhaust gases. As regulatory agencies continue to limit worker exposure limits, Systech expects source fume extraction to become increasingly more critical in a wide range of industries.

Movex industrial arms are uniquely designed and suited to deliver performance and reliability in a variety of laboratory and industrial environments. Each arm model has a host of different variations, including pharmaceutical grade construction, corrosion-resistant materials, and grounded/anti-static designs for use with combustible dusts. Movex offers a selection of local extractors for use in laboratories, pharmaceutical settings, schools, and manufacturing. All arms are available with options customizable for the specific application.

Systech was founded in 1985 with a commitment to provide practical, cost effective solutions to today's industrial air handling, cleaning, and moving challenges. Systech is regionally located with sales offices in Exton, Allentown and Harrisburg, Pennsylvania, to offer local support to a sales

area that includes Pennsylvania, Delaware, Maryland and New Jersey, as well as equipment manufacturers throughout the Mid-Atlantic States. Visit systech-design.com to learn more.
