*Luxury home builder, Lifestyle Homes, has designed a home that fits narrow lots and accommodates a growing family all at an affordable price point.*

PERTH, WEST AUSTRALIA, June 25, 2013 /EINPresswire.com/ -- Lifestyle Homes' Reflections home design is the builder's latest quality two storey home at an affordable price. What makes The Reflections stand out is the fact that it sits on a narrow block, yet sacrifices nothing in terms of luxury features or design quality.

"As with all of our homes, The Reflections represents value combined with functionality and open living. It is the perfect family home with plenty of rooms where the family can get together, but there are areas of privacy as well. We like to think the name, The Reflections, encourages home buyers to think and reflect about living in this gorgeous home," explained Sandra Muller of Lifestyle Homes ([www.lifestylehomes.com.au](http://www.lifestylehomes.com.au)).

The two storey home builder in Perth introduces The Reflections model.

The [two storey home builder in Perth](#) was able to incorporate all of the elements today's home buyers want on a lot of just 13m. The Reflections main living area consists of an open-plan living, dining and kitchen area. Even more space is added to this area when doors to the alfresco are opened up. It is the flexibility in design of The Reflections that has earned it a reputation as one of the "must see" [two storey display homes in Perth](#).

"The Reflections is perfect for growing families. The open-living design lets Mum and Dad keep an eye on tots but as the children get older, there's a main level home theatre as well as a lounge, bedrooms and a study area on the second storey that they can retreat to for privacy. The main floor master suite ensures Mum and Dad have a relaxing space all their own. The design works really well for families at all stages of life," noted Muller.

Lifestyle Homes was as careful and deliberate with the exterior positioning of the home as they were with the interior layout and design. Although The Reflections living areas are situated near the front of the home and are well-suited for a northerly aspect, they do not sacrifice privacy.

Careful zoning is to thank for this combination of privacy and functionality. The [luxury home builder](#) was sure to include a few noteworthy inclusions in the home; Ariston Appliances, cavity wall insulation, E-glass, European borer and termite resistance Westpine blue timber roof framing and freestyle benchtops are included in the design.
