

GlacialLight Announces the DL06-IP Ceiling Down Light Cover Accessory

DELHI, June 27, 2013 /EINPresswire.com/ -- GlacialLight, a division of the Taiwanese technology manufacturer, GlacialTech Inc., today announces the launch of its first cover accessory – the DL06-IP Ceiling Down Light Cover Accessory – for GL-DL06-IP LED Down Lights. This cover accessory is ideal for indoor and covered outdoor applications, and is available in three height options: 55mm, 105mm and 150mm.

This cover accessory increases the vertical profile and changes the look of the GL-DL06-IP Down Light. The DL06-IP Ceiling Down Light Cover Accessory also prevents possible damage from humidity or wind by stabilizing the hanging position of the LED down light. The accessory can also be hung from cables or metal bars attached to the ceiling, creating a different visual effect. The cover accessory comes in two color options (black and white) with high quality paint surface. This accessory can easily be mounted on all surfaces, including concrete ceilings, as no additional holes need to be drilled.

The DL06-IP Ceiling Down Light Cover Accessory extends the flexibility of GL-DL06-IP Down Lights by enabling them to be placed lower to provide lumination from a shorter distance. Further, the modern design scheme enhances the flexibility of the down lights as elements in the design of corridors, verandas, indoor spaces and bathrooms.
