

# Night Flight Concepts Awarded Extended NVG Inspection Contract with Bell Helicopter

*Night Flight Concepts is pleased to announce an extended NVG inspection contract with Bell Helicopter.*

BEDFORD, TEXAS, July 8, 2013 /EINPresswire.com/ -- Night Flight Concepts is pleased to announce an extended [NVG inspection](#) contract with Bell Helicopter. The Texas based Bell Helicopter manufactures a wide range of civil and military helicopters, as well as civil and military tilt-rotor craft.

"The extension of the inspection contract ensures the accuracy and dependability of our equipment and provides assurance that all [NVG equipment](#) will continue to operate at optimal performance," said Chad Oakley, Chief Flight Instructor, Bell Training Academy.

Night Flight Concepts owns and operates a FAA approved Part 145 [NVG Repair Station](#) which gives them the authority to conduct and certify the air worthiness of the inspections and are authorized to remove and replace the parts of NVGs. Night Flight Concepts comprehensive NVG maintenance solutions include:

- 180-Day NVG Inspections
- Night Vision Goggle Equipment Repair
- OEM Endorsed Night Vision Goggle Maintenance Technician Training

"Night Flight Concepts is very excited to be continuing our relationship with Bell Helicopter," stated David Luke, Night Flight Concepts Vice President. "Our maintenance and inspection programs have been created to support industry leaders, such as Bell, and allow our clients the assurance that their equipment will maintain at top-level performance."

About Night Flight Concepts ([www.nightflightconcepts.com](http://www.nightflightconcepts.com))

Night Flight Concepts assists organizations from around the globe, providing comprehensive night vision solutions featuring training, equipment, maintenance services, and consulting

options.

Night Flight Concepts was formed in 2006 by experienced civil and U.S. Army aviators, maintenance technicians, and safety officers. The company has over 50 combined years of aviation experience and performed flight operations around the globe and in all environments.

Night Flight Concepts was formed to meet the challenging need and continuing growth of night vision goggle (NVG) operations within the United States and abroad, particularly for law enforcement agencies, air medical/rescue services, military organizations, and government task force agencies; our "First Responders."

### About Bell Helicopter

Founded in 1935 as Bell Aircraft Corporation, Bell Helicopter invented tilt rotor aircraft is now the world's premier provider of vertical lift aircraft. These unique aircraft lift like a helicopter, then fly like an airplane with twice the speed, three times the payload and five times the range of traditional helicopters. Aerospace and aircraft will never be the same.

Headquartered in Fort Worth, Texas, Bell Helicopter has additional plants in Amarillo, Texas and Mirabel, Canada, logistics supply and service centers in Europe, Canada, and Singapore as well as in the United States. Over its rich history, Bell has delivered more than 35,000 aircraft to customers around the world.
