

iOS 6.1.4/6.1.3 Presented Jailbreak for iPhone 5/4S/4/3GS by UJB Media Team

It's now available the latest jailbreak iPhone 5/4S/4/3GS iOS 6.1.4/6.1.3

NEW YORK, NEW YORK, July 10, 2013 /EINPresswire.com/ -- The UJB Team is back! They have just released a version of SoftRa1n 0.6 (Mac and Windows) to untethered unlock jailbreak the iPhone 5/4/4S and 3Gs iOS 6.1.4/6.1.3.

To Jailbreak and Unlock your iPhone Visit The Official Website www.Unlock-jailbreak.net

Note: This release WILL help you hacktivate or jailbreak iPhone 5/4/4S/3Gs iOS 6.1.4/6.1.3 untethered . Therefore, update to iPhone OS iOS 6.1.4/6.1.3 if you rely on an unlock, as upgrading will upgrade your baseband which will allow you to use SoftRa1n 0.6 to jailbreak and unlock iPhone 5/4/3Gs iOS 6.1.4/6.1.3. The [Unlock-jailbreak.net](http://www.Unlock-jailbreak.net) Team has just released SoftRa1n today which brings first proper untethered jailbreak, with working Cydia and MobileSubstrate for all iOS 6.1.4/6.1.3 devices.

SoftRa1n Untethered Jailbreak for iPhone iOS 6.1.4/6.1.3 by Fast Unlock allows you to jailbreak iPhone 5/4/4S/3GS iOS 6.1.4/6.1.3 and unlock iPhone 5/4/4S/3GS iOS 6.1.4/6.1.3 and it works on iPhone 3G/3Gs , to get complete control over it. Currently, SoftRa1n allows you to perform a untethered jailbreak to your device that has already been upgraded to firmware iOS 6.1.4/6.1.3, which means you wont need to use SoftRa1n every time you boot the device, otherwise all your jailbreak data gets wiped. However, it will jailbreak iPhone 5/4/4S/3Gs up to iOS 6.1.4/6.1.3, enabling it to be used with different GSM carriers worldwide.

SoftRa1n will jailbreak iPhone 5/4/4S iOS 6.1.4/6.1.3 and 3G/3Gs and unlock iPhone 5/4/4S iOS 6.1.4/6.1.3 and 3G/3Gs iOS 6.1.4/6.1.3. You can Download SoftRa1n from the Official Website [Unlock-jailbreak.net](http://www.Unlock-jailbreak.net)

After two months of beta testing the guys at www.Unlock-jailbreak.net have released the tool and according to over 1000 customer testimonials everything works like a charm. Those who don't know much about iPhone 5/4,iPhone 5/4S iOS 6.1.4/6.1.3 jailbreak/unlock should not worry because the software comes with video,step by step instructions and technical/customer support available 24/7 as stated on their official website www.Unlock-jailbreak.net.

With the easiest jailbreak solution from www.Unlock-jailbreak.net called SoftRa1n updated for

any firmware, out that is browser based even those who may have hesitated in the past are flocking to sites to install the jailbreak and then take advantage of what the EFF fought for. The ability to be able to install any third-party software to make your iPhone more useful is a choice every smart phone owner deserves and now has.

For those of you who don't know, the software is based on a low-level bootrom exploit which will pwn all supported current iOS devices for life. Apple wont be able to patch it in the next firmware update. They will have to release a revised version for the mentioned iOS devices in order to patch the hole. It will also hacktivate iPhone 5/4/4S, running iOS 6.1.4/6.1.3 and 5.

The SoftRa1n download is now available for public consumption, should you want it. This particular version of SoftRa1n brings with it untethered jailbreaks for the iPhone, Verizon iPhone, iPod touch, and Apple TV 2. The procedure for jailbreaking your devices hasn't changed in the latest RC candidate, so if you've done a SoftRa1n download and install before, this one will be right up your alley.
