The proposed conference on the above theme will be held at Islamic Azad University, UAE Branch, Academic City Campus, Dubai, UAE from October 23-25, 2013 which aims to enable researchers build connections between different digital applications.

The conference welcome papers on the following (but not limited to) research topics:

- Biometrics Technologies
- Cloud Engineering
- Cloud Security
- Computer Architecture and Design
- Data Compression
- Data Management in Mobile Networks
- Distributed and Parallel Applications
- E-Commerce Security
- E-Technology
- Forensics, Recognition Technologies and Applications
- Image Processing
- Information and Data Management
- Mobile, Ad Hoc and Sensor Network Management
- Network Security
- Semantic Web and Ontologies
- User Interface and Usability Issues for Mobile Applications
- Web Services Architecture, Modeling and Design
- Wireless Communications
- Cloud Computing
- Cloud Gaming
- Computational Intelligence
- Cryptography and Data Protection
- Data Embedding and Watermarking
- Data Stream Processing in Mobile/Sensor Networks
- E-Business
- E-Learning

- Embedded Systems and Software
- Fuzzy and Neural Network Systems
- Information Content Security
- Mobile Networking, Mobility and Nomadicity
- Multimedia Computing
- Real-Time Systems
- Signal Processing, Pattern Recognition and Applications
- User Interfaces, Visualization and Modeling
- Web Services Security
- Wireless Sensor Networks

Researchers are encouraged to submit their work electronically. All papers will be fully refereed by a minimum of two specialized referees. Before final acceptance, all referees comments must be considered.
