

Electronic Cigarette Company Launches New Website

VaporHale.com offers e-cigarettes to anyone eighteen and older who smokes or daps.

DALLAS, TX, July 15, 2013 /EINPresswire.com/ -- Vapor Hale LLC, an online provider of electronic cigarettes and related accessories, is pleased to announce the launch of its new website, which offers a full range of products for online purchase.

Dallas premier electronic cigarette company, providing e-cigs, ecig, e-liquid and electronic cigarette accessories.

"We're pleased to provide a user-friendly site that makes [e-cigarettes](#) available to anyone eighteen and older who smokes or daps," said Kenneth Frank, founder of Vapor Hale, LLC.

"These items are a great alternative to traditional tobacco products and can also help users finally kick their habit," he added.

We're pleased to provide a user-friendly site that makes e-cigarettes available to anyone eighteen and older who smokes or daps."

Kenneth Frank

Electronic cigarettes (e-cigarettes) look similar to traditional cigarettes, but function differently. Nicotine is heated inside an electronic device that creates a [smokeless vapor](#), which is then inhaled by the user. The nicotine-infused vapor is often flavored and free from the harmful tar, carbon monoxide and chemicals found in traditional cigarettes.

For many, e-cigarettes provide a way for users to slowly taper down their tobacco use.

"Electronic cigarettes work very well and they actually helped me quit smoking cigarettes," noted Frank. "In fact, my wife, sister in law, brother in law and countless other friends and family members have quit smoking by using electronic cigarettes."

The personal successes of Frank and other family members with electronic cigarettes was the catalyst for the company's launch. After smoking and dipping on-and-off for fourteen years, Frank was finally able to quit "cold turkey" as a result of e-cigarette usage.

As the [electronic cigarette](#) market continues to grow, Vapor Hale expects to continue expanding

its product line and available items and accessories.

Vapor Hale LLC

"After smoking cigarettes and dipping snuff for 14 years - quitting many times in between, I finally quit cold turkey by using an Electronic Cigarette. Its been 8 months since I kicked the habit. For years I would tell myself I was going to "Quit Smoking" just to pick right back up where I left off.... And then some! I'm not one for gimmicks. Like most people I came across a few folks using the Electronic Cigarettes and in the back of my mind wondered if they really worked," says Kenneth Frank.

"Well, Electronic Cigarettes do work and they did help me quit smoking cigarettes. My wife, sister in law, brother in law and countless other friends and family have quit smoking by using electronic cigarettes. In fact, I personally know of at least 2 dozen people that have been able to kick the habit of traditional cigarettes by using an e-cigarette. You don't have to take my word for it - Try it for yourself," added Kenneth.

Vapor Hale's goal is to make e-cigarettes available to anyone and everyone (older than 18 yrs) that smokes cigarettes or dips snuff. "E-cigarettes can work and you can quit! By offering the best quality e-cigarettes and e-liquid we hope to make your goals easier to achieve," says Kenneth.
