

Unique System LLC (USA) Completes the Upgrade to the Ranger Offshore, Inc. HOSS-1, 6-Man SAT System

SHARJAH, UAE, July 16, 2013 /EINPresswire.com/ -- Unique System LLC (USA), a Unique Maritime Group company, which is one of the world's leading integrated turnkey subsea and offshore solution providers has recently completed the successful delivery of upgrade to the Ranger Offshore Inc.'s DNV classed, 6-man 1000' Saturation Diving System to a 12-man system.

Established in 2005, Unique System LLC (USA) is based in New Iberia, Louisiana and Houston, Texas. The company has achieved significant success over the years specializing in the supply of equipment for sale and rental to the diving and offshore industries in the Gulf of Mexico region. From New Iberia, Louisiana, the company offers diving equipment rentals and sales, saturation systems, new builds, refurbishments, project management and mining & construction tunnel boring machine airlocks. From Houston, Texas, our specialization embraces hydrographic survey rentals and sales.

Ranger Offshore, Inc. delivers safe, reliable, cost-effective marine and subsea construction support services to the offshore oil and gas industry. Headquartered in Houston, Ranger Offshore manages operations throughout the Gulf of Mexico and in select international waters from our base in New Iberia, Louisiana.

Originally built by Unique System in 2010, Ranger Offshore contracted USLLC to perform the upgrade to make it a 12 man diving system. The modular design of this unit allows for this upgrade of the system to accommodate 12 divers for working in water depths of up to 1000 fsw. The upgrade was done under the auspices of Det Norske Veritas in order to keep the system classed as DNV for all future work.

On completion of this upgrade, Arjun M Ramchandani, CEO @ Unique System LLC (USA) commented, "We are pleased to announce the successful upgrade of Ranger Offshore's SAT system. The upgraded system is also a DNV classed system. We are able to take on upgrade projects to class certification in order to support our client requirements".
