Slimweight Patch is the new weight loss product which uses the cutting edge proven transdermal technology to deliver its natural ingredients to the blood to boost the weight loss process and nourish overall health. Hence there will be no need of the oral consumption of any supplement.

The product is a patch for applying over the skin which then transmits its natural ingredients into the blood through the skin.

[Slim Weight Patch](#) contains various proven fat burning and weight loss aiding nutrients including Zinc Pyruvate, Lecithin, 5-HTP, Yerba Mate, Guarana, Flax Seed oil, and L-Carnitine. Clinical studies have found that 95% of the ingredients get absorbed and delivered into the blood and effectively boosts the weight loss process.

The product performs all the health beneficial functions which an oral weight loss supplement can do. The 5-HTP in the product is found highly effective to prevent the serotonin level from declining and hence it affects the appetite for food and eliminates the bad hunger cravings. Guarana in the product boosts the metabolic process and promotes the faster fat burn. This helps greatly in the weight loss process.

As the product contains all the natural substances therefore health experts have approved that it is 100% safe for use and has no negative side effects on health.
