

# Business Continuity and ISO 22301 green paper made available from IT Governance

*A selection of Business Continuity and ISO22301 FAQ's are now available from IT Governance Asia.*

AUSTRALIA, July 16, 2013 /EINPresswire.com/ -- A selection of [Business Continuity and ISO22301](http://www.itgovernance.asia/t-iso22301.aspx) FAQ's are now available for IT practitioners to download from IT Governance ([www.itgovernance.asia/t-iso22301.aspx](http://www.itgovernance.asia/t-iso22301.aspx)).

Business Continuity is a term related to the activity of an organization to ensure that critical business functions will be available to customers, suppliers and other stakeholders. ISO 22301 is the new business continuity standard (replacing BS25999) that sets out a list of requirements that a Business Continuity Management System (BCMS) can be aligned against and an organisation certified against.

As this can be quite a complex topic, IT Governance has authored the '[Business Continuity Management](#) & ISO 22301' green paper which is a collection of FAQs to aid professionals in the BCM journey.

The green paper can be downloaded for free from the Asia Pacific IT Governance website ([www.itgovernance.asia/t-iso22301.aspx](http://www.itgovernance.asia/t-iso22301.aspx)) and contains a number of links and resources for further related reading.
