Green Energy Barrier (GEB) is an energy-efficient insulation that reflects heat away from the home in the summer, and into the home in the winter, and uses the same radiant heat barrier material from which astronaut suits are made to protect them from temperature extremes in space.

“

Once Green Energy Barrier is installed, homeowners will be able to enjoy up to a 25 percent savings on their energy bills year round.”

*Justin Betz*

This GEB special from America's Best Choice Windows can provide homeowners added comfort and lower utility bills, along with professional insulation services. “Once Green Energy Barrier is installed, homeowners will be able to enjoy up to a 25 percent savings on their energy bills year round,” said Justin Betz, company spokesperson. Betz adds

that [Raleigh insulation installation](#) technicians can also add a layer of protection by stapling the GEB radiant barrier material below the home's roof rafters as well as underneath the home and into the crawlspace.

Just as energy efficient replacement windows pay for themselves in energy savings over a period of time, high-quality home insulation in Raleigh gives consumers a return on their investments.

Call America's Best Choice Windows today at (919) 238-1759 to learn more about the \$500 special offer on energy efficient insulation. The company serves Raleigh, Durham, Chapel Hill, Garner and Smithfield, North Carolina.
