

Perfect Photo Show: Easy and Free Way to Create Amazing Slideshows

WnSoft announces the release of Perfect Photo Show, straightforward free slideshow software for beginner photographers and home users.

MOSCOW, July 18, 2013 /EINPresswire.com/ -- WnSoft announces the release of Perfect Photo Show, straightforward free slideshow software made by acclaimed photo professionals for beginner photographers and home users. Combining the accessible interface with vast functionality, the program allows creating picturesque, fascinating slideshows with minimum hassle.

Perfectly built graphical slideshows are a vivid and spectacular way to express feelings that also works much better than just showing photos one by one. Themed music and eye-catching effects add to ambience making the entire show more atmospheric.

Perfect Photo Show released by WnSoft, a leading developer on the slideshow software market, allows for creating nicely-looking slideshows in a snap thanks to the plain and lightweight user interface. A handful of animation and transition effects plus customizable duration of the effects and possibility to add background music not only enliven static images, but can literally tell the story.

Conveniently, Perfect Photo Show features effortless exporting of a slideshow to AVI format and uploading it to YouTube directly from the program. A full-screen high quality preview mode and excellent quality of images add to the advantages of the program. So with few clicks a user can make a perfect slideshow without wasting time on mastering all the basics first.

“We set the goal to make a simple yet effective tool for beginners and for those who just want to get high-quality slideshows without spending hours on that”, says Igor Kokarev, CEO of WnSoft. “Perfect Photo Show is exactly such a tool – functional, easy to use and friendly to novices.”

Pricing and availability

Perfect Photo Show is free. The program supports Windows 7, 8, XP, Vista.
