

Mesh Networks and Staley, Inc. Partnership to Deliver State-of-the-Art Bandwidth Management

HOUSTON, TEXAS, July 18, 2013 /EINPresswire.com/ -- Staley, INC has selected Mesh Networks as a key technology provider of patent pending, next-generation, [bandwidth management](#) solutions for Fraternity/Sorority and Hospitality markets.

Houston, Texas - Staley Technologies, INC, (Staley) a leader in technology deployment services announced today they have increased their broadband provisioning capabilities by selecting Mesh Networks (Mesh) for it's state-of-the art, patent pending bandwidth management technology products for the home, business and enterprise markets.

Staley has been associated with technology and electrical provisioning for multiple markets, including major retailers since 1951. Staley plans to ramp up their technology products and services offerings for the Hospitality and Fraternity/Sorority [Student Housing](#) industries through a new business relationship with Mesh Networks.

“

...a great opportunity to significantly accelerate IT provisioning deployment capabilities...”

Martin Scheid, Mesh CEO

Mesh Networks leads the technology evolution-curve because they specialize in state-of-the-art, patent pending

[broadband management](#) tools that empower the network manager/owner to manage their home, business and enterprise networks with cloud-based and on premise solutions that produce remarkable Quality of Experience, retention, and customer loyalty.

“Our agreement with Staley helps to provide them a great opportunity to significantly accelerate their deployment capabilities of products and services at much less capital expenditure than is typically associated with this type of IT provisioning,” states Martin Scheid, Mesh CEO. “We couldn’t be more delighted with our new relationship with Staley.”

“We are pleased to add Mesh’s cost effective, enhanced bandwidth management and optimization tools to our portfolio of offerings,” Don Wilborne, Staley CRO goes on to say. “The

growth potential is exciting, and Mesh's unique product suite will support us to rapidly fulfill our vision to be the national leader in technology deployment."
