

# Advanced Radon Mitigation Offers Home Dehumidification Services in NH

HOOKSETT, NEW HAMPSHIRE, USA, July 19, 2013 /EINPresswire.com/ -- Summer humidity is a problem for many New Hampshire homeowners; Advanced Radon Mitigation offers [home dehumidification](#) services to help during the dog days of summer.

Summer humidity is a problem for many New Hampshire homeowners; Advanced Radon Mitigation offers home dehumidification services to help during the dog days of summer.

The heat is on in the Granite State, with sweltering summer temperatures piercing the century mark in many places. Homes, especially older homes, in New Hampshire are virtual sweatboxes, requiring dehumidification. Concord and Manchester residents can rely on Advanced Radon Mitigation of Hooksett for home dehumidification services.

"During times of intense heat and humidity, moisture can seep into a home's foundation, causing mold to grow, which will make the occupants sick," claims Robin Gelinis of Advanced Radon Mitigation.

This heat/humidity convergence is especially impactful, continues Gelinis, "in homes with crawlspaces and basements – like the ones we service throughout New Hampshire."

"A standard dehumidifier – that will help some, taking the moisture out of the air. But not the structure of the home – that is where Advanced Radon Mitigation's patented [New Hampshire dehumidification](#) services can help you."

In addition to offering home dehumidification in New Hampshire, Advanced Radon Mitigation offers [New Hampshire mechanical](#) ventilation systems that can improve the air quality in a home. Some customers are not aware that these can help, and Advanced Radon Mitigation seeks to make them more aware.

"We offer an initial free consultation and a site evaluation for free also," claims Gelinis. "In addition to our New Hampshire radon testing and mitigation, we ensure that New Hampshire customers throughout the state have what they need when it comes to reducing the effects of humidity and other issues that would impact the sanctity of their homes."

Advanced Radon Mitigation & Water Treatment is New Hampshire's full service Radon Mitigation

and Water Treatment company
