Casino Games Developers from CasinoWebScripts announce new challenging titles

Casino Software Providers from CasinoWebScripts Succeed In Making A Difference To The Fast-Growing Online Gambling Industry

BUCHAREST, ROMANIA, ROMANIA, July 22, 2013 /EINPresswire.com/ -- In 2009, CasinoWebScripts was formed by a group of enthusiastic web developers and graphic artists. They decided to team up and create a cutting-edge solution for all entrepreneurs who were looking forward to opening profitable online casinos. Shortly after, they filled a preeminent position in the increasingly competitive area of casino software providers. CasinoWebScripts reviews on their state-of-the-art products proved that this company has all it takes to compete with the giants of the casino industry. Recently, CasinoWebScripts' casino software providers have engaged in developing a series of top quality games, in order to improve their customers' satisfaction, while maintaining their "no monthly fees" policy.

In addition to their impressive repertoire of over 130 gambling titles, CasinoWebScripts' casino software providers decided to boost their collection with 6 new challenging games, scheduled to be released during this summer. "Ultimate Greyhound Racing" is a multiplayer greyhound dog racing game that offers its players a thrilling betting experience, with an attractive design and realistic animations. "Treasure of the Wild Bear", the most recent masterpiece by CasinoWebScripts' casino software providers, is a delightful game which presents a cute family of bears that will guide the player through a series of amusing adventures, the game featuring rewarding free spins, an expanding beehive wild, two creative bonus modes and a fun gamble option. "Year Two" transports the player into the well-known prehistoric era, where our ancestors who invented the wheel will spin it during the bonus feature of the game. "Luxuriouslot" has been developed by CasinoWebScripts' casino software providers for individuals who adore the glamorous feeling of being surrounded by extravagant items, including diamonds and champagne, while "Reel Cuisine" will be the perfect entertainment source for all gourmands out there. "Bingo 3D" brings back the good times when almost everyone played and won at this popular game, CasinoWebScripts' casino software providers offering several versions of Bingo, including the popular Bingo 75 and Bingo 90.

Furthermore, the casino software providers from CasinoWebScripts have decided to take everything to the next level. According to the CEO of the company, Mr. Florin, the company will improve their already successful casino games to fit HD wide resolution. The current objective of

CasinoWebScripts' casino software providers is to have the most flexible and complete platform available, meaning that their games will be modified in order to offer many features which can be easily enabled or disabled from the administrator panel.
