

The Sanctuary By Two Storey Home Builder In Perth, Lifestyle Homes, Offers A Retreat From The World

Entitled The Sanctuary, the home is one of the builder's most popular two storey display homes in Perth.

PERTH, WEST AUSTRALIA, AUSTRALIA, July 22, 2013 /EINPresswire.com/ -- Luxury home builder, [Lifestyle Homes](#), may have designed the perfect family escape with their new home design, The Sanctuary. As the name implies, The Sanctuary offers a retreat from the world for busy families.

The escape starts immediately upon approach to the home with a cedar-lined portico and impressive double door entry providing welcome. A roomy balcony and stunning elevation give The Sanctuary an irresistible draw.

Lifestyle Homes, a luxury home builder in Perth, has designed the perfect family home.

"People are drawn to The Sanctuary. The home is both stately and inviting from the outside and once they get inside the retreat is complete. With the core of the home located to the rear, families find it easy to escape from the world outside and enjoy their privacy," said Sandra Muller of Lifestyle Homes (www.lifestylehomes.com.au).

The heart of the home is an [open floor plan](#) in which the kitchen, living room, dining room and alfresco blend seamlessly together providing a functional and open space where families can gather. The home theatre is located in this area too, but is completely enclosed, which helps minimise noise to the rest of the home.

Not only has the two storey home builder in Perth designed an impressive retreat from the outside world,

family members can have the privacy they need from each other as well. Parents will be pleased with the spacious master retreat located at the front of the home while kids will love the kids zone located upstairs. The kids zone features its own bathroom and sitting room.

"Most people who see The Sanctuary love the fact that the 3 smaller bedrooms are located on the upper level with the master on the lower level. This gives both parents and kids a bit of extra privacy that is hard to find in one storey homes. Each of the bedroom areas has it's own sitting room or study as well so the kids can have their own homework area without taking over Mum or Dad's space," explained Sandra Muller.

Known for their stunning two storey display homes in Perth, Lifestyle Homes was certain to include many of their [signature features](#) in The Sanctuary. Generously proportioned rooms are outfitted with premium fixtures and plenty of special touches like the cedar-lined alfresco, the 32c ceilings and Ariston appliances throughout the kitchen are standard on the home.
