

# Duratread Unveils New Steel Radial Truck Tires and an Extended Range of OTR Tires at the Latin Tyre Expo in Panama

---

*Visitors to the Duratread booth (D176) will be able to see examples from the all-new line up of Steel Radial Truck Tires as well as tires from the OTR range*

PANAMA CITY, PANAMA, July 24, 2013 /EINPresswire.com/ -- As the Latin Tyre Expo gets underway in Panama for the fourth year running, visitors to the [Duratread](#) booth (D176) will be able to see the latest additions to the range of specialist tires as well as examples from the all-new line up of Steel [Radial Truck Tires](#) that have recently started production in Vietnam.

Duratread's range of tires has grown consistently in the last 2 years and the range now includes over 150 tire sizes.

Since the inauguration of the new Radial Truck Tire factory earlier this month (July 2013), this will be the first time that examples of the Radial Truck Tires have been seen outside of Vietnam.

The first steel radial truck tire facility of its kind in Vietnam, it has taken 2 years to build and is equipped with the latest state-of-the-art plant machinery which has been produced and imported directly from Europe. The factory will produce a complete range of the latest technology tires for both local and export markets in rim sizes 20" to 24.5", covering all the popular sizes.

Steel Radial Truck Tires will be the first product in the range to be manufactured in the factory. It is anticipated that full production will be reached in 2014.

Senior managers from the DRC factory in Danang will be at the Duratread booth during the show to answer questions and discuss the new developments. Additionally, on the stand, visitors will be able to see the Duratread conventional Truck Tire range, Port, Industrial and Construction tires.
