

LASERTRON Installs LT-12 System and Arena for Rigby's Entertainment Complex in Warner Robins, GA

On May 3rd, 2013 Rigby's Entertainment Complex opened up their 50,000 square foot facility to the community of Warner Robins, GA.

AMHERST, NY, USA, July 29, 2013 /EINPresswire.com/ -- Rigby's Entertainment Complex includes state of the art bowling lanes, a large modern roller skating rink, a full service restaurant, a large arcade, giant TVs, a two-floor [laser tag arena](#) and an upstairs balcony lounge. Future plans include adding a pool table room, an outdoor go-kart track and batting cages.

Owner Steve Rigby researched laser tag manufacturers, attended various trade shows, talked with and visited many other laser tag entertainment centers for about two years. Ultimately, he selected LASERTRON's Game System and Arena for its durability, self-install option, operator support and much more.

Steve had this to say about his laser tag attraction.

"Our custom, multi-level LaserTron arena is 5,400 square feet total with 26 [LT-12 vests](#). The arena can hold up to 36 players at once so we will gradually be adding more vests as we go forward. It is the most popular attraction we have. When we opened our doors we had such long lines at laser tag that we had to redesign the floor of the game room to accommodate the long lines!"

"I wanted our arena to be a showcase piece so we included some unique elements to our arena such as our 4 deluxe tower structures, 2 large 32' LCD screens that display the players scores, time remaining, base hits, etc. and LASERTRON's LED illuminated [vesting racks](#)."

The LT-12 vests are LASERTRON's newest model which offer superior mp3 sound effects and announcements, a full color OLED display, 5 vibrators that allow you to detect which direction you are being tagged from, red and green lasers and much more.

When we opened our doors we had such long lines at laser tag that we had to redesign the floor of the game room to accommodate the long lines!"

Steve Rigby

Steve also commented that "Laser Tag has already paid for itself and we know it will continue to show strong numbers."

Steve and his assistant Stacey came to Buffalo, NY in February of 2012 where LASERTRON is based, to attend the LASERTRON Entertainment Center Conference for 2 days. There they were able to check out the LASERTRON laser tag system, the playability of the arena and to learn more about operating and managing a laser tag attraction.

When LASERTRON installed the game system and arena, their techs spent several days training staff and management.

Visit www.rigbysec.com for more information regarding their exciting complex.

Learn more about how LASERTRON provides the safest, most durable and fun laser tag attraction by visiting LASERTRON's Entertainment Center or attending the Entertainment Conference, which is scheduled for August 13-14th. For over 11 years now LASERTRON's conference program has been dedicated to improving the profitability of entertainment centers by educating existing clients as well as those getting into the business.

With 131 locations currently operating with LASERTRON laser tag equipment, LASERTRON focuses on forging strong relationships with their clients by providing them with high levels of training, service and building reliable, high quality products.

LASERTRON has been operating their entertainment center for over 24 years. LASERTRON offers their guests and clients multiple attractions to enjoy including a large 9,200 sq. ft. multi-level laser tag arena, an outdoor go-kart track and 2 Cyber Sport courts, 27-holes of miniature golf as well as LASERTRON's full bar, comfortable seating, arcade, VIP room and outdoor patio. Total revenue for the 21,000 sq. ft. LASERTRON entertainment center exceeds \$2.6 million in sales.
