The Tinnitus is the constant ringing condition in the ear and very common these days. Recent statistics show that every 1 person out of 5 is suffering from this irritating condition. The problem is commonly caused due to the constant exposure to the loud noise. This loud noise leads to the permanent damage of the small inner cells of the

ear. When these cells are damaged, they produce the dull ringing in the ears called Tinnitus. Research has found that 90% of Tinnitus sufferers are experiencing this condition due to the loud noise. The noise may be the exposure to loud music, construction noise, and even hair

The advertisement graphic for Tinnitus Control features a blue header with the brand name 'Tinnitus Control' and the slogan 'Silence the Ringing' next to an ear icon. Below the header, on the left, is a close-up of a hand cupping an ear. In the center, there is a box of the product, a spray bottle, and a small bottle. To the right of the product images is a list of four benefits, each preceded by a green checkmark. At the bottom left of the graphic is a blue button with white text. The entire graphic is set against a white background with a subtle blue wave pattern.
