IT Governance becomes a DNV recognised consultancy firm

ELY, UK, August 6, 2013 /EINPresswire.com/ -- IT Governance, the leading ISO 27001 and cyber security services firm, has reported that it is now a DNV 'Recognised Consultant'. This important recognition follows the delivery of a consultancy project for a client that lead to that organisation becoming ISO 27001-certified by DNV.

Steve Watkins, Consultancy and Training Director at IT Governance says: "We are pleased that IT Governance has met all criteria and is now listed on the DNV Businesses Assurance Consultant Gateway. The fact that we have been recognised by yet another UKAS accredited certification body as a leading consultancy is a testament to the consistent high quality of our work. At the same time, we are independent of vendors and certification bodies and always encourage our clients to select the best-fit supplier for their needs and objectives."

IT Governance is listed on other approved consultancy lists including:

• Alcumus ISOQAR Consultant Database
• BSI Management Systems UK Associate Consultant Programme
• Bureau Veritas Certification approved list for the implementation and management of ISO27001 and ISO20000
• LRQA Consultant Network
• NQA Consultant Database

IT Governance offers a comprehensive range of flexible, practical support packages to help organisations – of any size, anywhere in the world – implement an Information Security Management System (ISMS) that uses the best practice contained in ISO 27001 and which is capable of independent, accredited certification. The company has experience working with SMEs and large organisations across all industries and sectors and to date has helped more than 130 clients achieve ISO 27001 certification.

More information on the IT Governance ISO 27001 consultancy service can be found at www.itgovernance.co.uk/iso27001_consultancy.aspx.
