

New animated video from Vigilant Software to showcase vsRisk™

Vigilant Software has published an animated video to showcase the benefits of its ISO27001 compliant cyber security risk assessment tool, vsRisk™.

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, August 12, 2013 /EINPresswire.com/ -- Vigilant Software, the leading cyber risk solutions provider, has published an [animated video](#) on their website to showcase the benefits of its ISO27001 compliant cyber security risk assessment tool, vsRisk™.

Alan Calder, CEO of Vigilant Software says: "This was the first video we've had animated for our website which we think works really well. It's colourful, fresh and engaging – quite different from any other risk assessment video out there."

This new, two minute long, 2D animation shows viewers the importance of managing risk within their organisation and the benefits an automated assessment tool can bring.

vsRisk, the cyber security risk assessment tool, is software that automates the arduous task of risk assessments and has been proven to save up to 70% of time compared to manually completing the process. Vigilant Software are currently offering a [15-day free trial](#) of the software.

Vigilant Software is owned by IT Governance Ltd and aims to make cyber security risk assessment and management straight forward and affordable to all.

A number of other videos have been commissioned by Vigilant Software, those of which can be found on the [Vigilant Software YouTube channel](#).
