

Palsett Heating and Cooling Helps Customers Survive Winter With 0% Financing

CHESAPEAKE, VA, USA, August 15, 2013 /EINPresswire.com/ -- A functioning heating system is a necessity for families in the winter. Now, a local air conditioning and heating service is offering 0% financing for twelve months on any services.

The middle of winter is not a good time for heating units to break down. Most families, particularly those with small children, have other expenses to deal with in the winter. In addition to outfitting the kids with winter gear, they have to spend extra money on Christmas presents. The high expense of a new heater is often too much for the average family. Regardless of whether it is a furnace or boiler that needs replacing, the cost can amount to several thousand dollars.

Palsett Heating and Cooling, an [air conditioning company in Hampton](#), Virginia has seen customers struggle to pay for the new heating unit they desperately need to keep their homes habitable in the winter. For a limited time, the [Hampton heating contractor](#) is now offering 12 months of deferred interest on financing. This means homeowners can protect themselves against the cold without having to spend a fortune up front. Clients have a full year to save and plan before making any payments.

Many times, a new heating unit is not necessary if a heating and cooling contractor in Hampton is called at the first sign of any problems. A simple, cost effective heat pump replacement can keep the home's heater running in most cases. With over 60 years of experience, the qualified professionals at Palsett Heating and Cooling can inspect a boiler or furnace to find the exact problem. Though they are qualified to help with any brand of heater, technicians specialize in well known, popular brands like Maytag, York, Rheem, Olsen, Trane, Rudd, Armstrong, Carrier and Thermopride.

In addition to heating repair services, Hampton residents can call Palsett Heating and Cooling for help with air conditioners, water heaters, generators and air ducts. Visit them online at www.acandheating-va.com.
