

VoIP System USA Launches Creative VoIP Infographic

Voice over Internet Protocol service comparison provider put together nuggets of information to help businesses and consumers understand what VoIP is and does.

CHESAPEAKE, VA, USA, August 19, 2013 /EINPresswire.com/ -- What do people mean when they're talking about VoIP (VoIP) technology? [VoIP System USA](#) has the answer in a nutshell. The Chesapeake-based company has launched an infographic called "VoIP: Unlimited Calls, Better Features, Huge Cost Savings!" It highlights the background, benefits and features of VoIP technology.

VoIP System USA, which offers its customers free comparisons on Internet telephony service providers, features and phones, put together the infographic to help business owners and consumers understand the basics of VoIP technology.

"People use VoIP all the time and probably don't even know it," said Mike Cynar, CEO of VoIP System USA. "As experts in the field, our staff thought it might be fun to do an infographic that presents some interesting facts and helpful nuggets of information all in one place."

Most people don't know, for example, that VoIP technology has been around since 1973 or that Skype's user base jumped from 474 million to 663 million in 2010.
