

Industry Veteran Launches Global 7 Technologies, Offering A Fresh Perspective On E-Discovery

Brad Mixner announces the formation of an innovative new company that provides information management solutions to the legal & financial industries

LAS VEGAS, NV, USA, August 19, 2013 /EINPresswire.com/

-- Brad Mixner, a 15+ year veteran and thought leader within the electronic discovery and litigation support industry, today announced the formation of Global 7 Technologies LLC (www.global7technologies.com), a technology company that develops information management solutions for the legal and financial industries. Mr. Mixner has been named Chief Executive Officer of the new company, which is based in suburban Cleveland, Ohio.

Global Discovery Network from Global 7 Technologies

Global 7 Technologies ("G7T") will develop next-generation web platforms that integrate the latest technology tools that leverage the amazing efficiency of their global network of cloud servers and maintain the high levels of quality, performance and security that are critical within law and finance.

The G7T flagship product, [Global Discovery Network](#) ("GDN"), is a secure [cloud platform](#) designed for the global legal industry that enables the easy preview of electronic business data typically associated with litigation, arbitration and investigations. GDN is currently in private beta testing and accepting applicants for the upcoming public beta program, scheduled to last until product launch in February 2014.

Designed to achieve strength through simplicity, GDN features a clean user interface that enables quick learning for new users and smooth navigation for power users. Panels for advanced searching, tagging, comments, annotations and coding data may be customized on the fly by the user, saving valuable screen space for what is important to the individual user.

With GDN, it is no longer necessary to send emails, documents, spreadsheets, photos and presentations out to be processed or deal with complex load files. Data uploads are as simple as selecting a folder from a hard drive or even "dragging and dropping" a group of files from

Windows Explorer! Most files can be uploaded, processed and available for review in minutes rather than the hours or days typically associated with other discovery platforms. There is no software to install (or support), no long waits for the data shipping/processing cycle and no complicated pricing schemes.

In summary, the GDN is a multifaceted resource for attorneys, paralegals, [e-discovery](#) consultants, computer forensic technicians, forensic accountants, litigation support vendors and related industry specialists.

Top Features of the Global Discovery Network:

- * Unlimited Users
- * Mobile Apps
- * Drag-n-Drop Uploads
- * PST Processing
- * Native File Processing
- * Dynamic Foldering
- * Advanced Searching
- * File Preview
- * Search Hit Highlighting
- * Full Unicode Support
- * Bulk Tagging
- * Commenting
- * Bulk Coding
- * Searchable PDF Exports
- * TIFF Exports
- * Image OCR
- * Native File Exports

Channel Partner Program

Global 7 Technologies will be utilizing a channel partner sales program for Global Discovery Network. Interested vendors should contact Brad Mixner for further information.

ILTA 2013

Mr. Mixner is currently attending 36th Annual International Legal Technology Association Conference being held at Caesar's Palace in Las Vegas. Titled "ILTA 2013: The Catalyst," this key industry event is a four-day educational conference with over 200 peer-developed educational sessions, case studies, advanced curriculum, roundtables, lecture presentations and panel discussions. Mr. Mixner is available for meetings to discuss Global 7 Technologies and the Global Discovery Network. Those interested should contact +1.216.220.5848.

About Global 7 Technologies
