

# IT Governance Publishing eBooks now available to rent via Reference-Tree.com

ELY, UK, August 20, 2013 /EINPresswire.com/ -- [IT Governance Publishing](#) (ITGP), a leading publisher of Corporate and IT Governance content has entered an exciting partnership with [Reference Tree](#) to deliver textbooks via the Reference Tree eBook platform. Professionals, academics and students will now be able to access eBooks related to cyber security, network management and information risk and compliance anywhere in the world from as little as £4.20 for 1 month's access.

Reference Tree, an eTextbook company, allows users to rent books or chapters for one or six months and removes the hassle to consumers of reselling or throwing out used textbooks. The platform also enables students to collate their books in one, easily accessible e-library, relieving the burden of carrying heavy textbooks to class and on holiday.

Hannah Perrett, Head of Publishing at IT Governance Publishing is enthusiastic about the partnership and says: "The platform is an excellent vehicle to get our content direct to students, academics and professionals in a way that suits them."

Amil Tolia, CEO of Reference Tree is also keen to provide the best content to students and academics:

"We are very excited to be working with IT Governance Publishing. This partnership means we are making some of the best content on all aspects of IT governance available via Reference Tree. With our per-chapter rental models, it will be easy for students and seasoned professionals interested in IT Governance to develop their skills and knowledge."

Commencing with 120 titles, all books from IT Governance Publishing will be available on Reference Tree as chapters or whole books, for rental periods of one month or six months.
