

Premier Smiles of Charlotte Now Offers Emergency Dental Service

Premier Smiles of Charlotte, North Carolina, announced they are available on an emergency basis for immediate dental consultations and treatment.

CHARLOTTE, NC, USA, August 23, 2013 /EINPresswire.com/ -- Premier Smiles, an [experienced dentist in Charlotte](#), is now offering emergency dental services for the entire family. As one of the leading [dentists in Charlotte](#), Premier Smiles of Charlotte, is committed to provided dental care for the whole family, and accepts patients six-years-old and up.

With a new emphasis on offering emergency dental services, Premier Smiles of Charlotte wants its current and future patients to call immediately if they are experiencing tooth or gum pain or need a broken filling repaired. In addition, if patients suspect they may have an infected tooth, they should immediately seek help from this qualified root canal dentist in Charlotte.

As urgent dental complications can happen any time of the day, Premier Smiles of Charlotte wants to encourage area residents to take advantage of its professional dental staff, who can attend to any dental emergency in Charlotte as quickly as possible.

Dr. Brain Pressley, who heads the practice, says, "If you are experiencing any painful or unusual symptoms, don't hesitate to contact our office immediately to schedule a same-day emergency dental appointment to relieve any oral pain."

Premier Smiles of Charlotte offers the following important tips for patients who need help handling dental emergencies:

- If a toothache is plaguing an adult or child, it is best to take Tylenol or Ibuprofen to help reduce any pain.
- When the mouth appears to be swollen, apply a cold compress to the affected area, which can help to reduce severe pain. Also, call Premier Smiles of Charlotte immediately if the pain or swelling don't lessen.
- In the case of a chipped or broken tooth, be sure to rinse and save any pieces. Then rinse the mouth with warm water. If there is any bleeding, apply gauze to that area for about 10 minutes or until the bleeding stops.
- In the case of an object stuck in the teeth, try gently using dental floss to remove the object. It is best not to use any sharp objects to try and dislodge the object.

If patients are experiencing all or any of these above issues, Premier Smiles of Charlotte advises calling (704) 280-0459 as soon as possible.
