

# West County Smile Center Announces Plaque Prevention Program to Combat Heart Attack Danger

CHESTERFIELD, MO, USA, August 28, 2013 /EINPresswire.com/ -- It has been reported that dental plaque can contribute to blood clots known to cause heart attacks by traversing the blood. West County Smile Center dentist, Dr. Randa Hawatmeh, aims to help patients stay free from plaque and provide another barrier against a heart attack.

“

We keep up with the latest methods and regularly attend lectures, meetings, and continuing education courses, ensuring that we provide patients with relevant, up-to-date information.”

It has been reported that dental plaque can contribute to blood clots known to cause heart attacks by traversing the blood. West County Smile Center dentist, Dr. Randa Hawatmeh, a [dentist in Chesterfield, MO](#) aims to help patients stay free from plaque and provide another barrier against a heart attack.

This [Chesterfield family dentist](#) stresses to all of its patients—adults and children alike—the critical need to practice daily preventative dental care. Knowing about the connection between plaque in the mouth and plaque that

causes blockage to the heart has galvanized Dr. Hawatmeh's practice to educate all patients on the seriousness of neglecting oral care. She says, “We keep up with the latest methods and regularly attend lectures, meetings, and continuing education courses, ensuring that we provide patients with relevant, up-to-date information.”

West County Smile Center's certified professional staff customizes its preventive solutions, including the number of annual visits, to the needs of the specific patient. They offer information on the number of regular checkups necessary, how to prevent tooth decay with a healthy diet, the best method to brush teeth after meals, and a number of methods for flossing the teeth.

Equally known for its patient-sensitivity and all-encompassing services, West County Smile Center offers regular dental services that include routine examinations, X-Rays and oral health screenings, such as checking for pre-cancerous cells on the tongue. In addition to these services, the dental practice specializes in cosmetic dentistry that includes teeth whitening, veneers, and dentures and partials, as well as restorative dentistry for crowns, dental bridges, dental implants and root canals.

Contact West County Smile Center today to schedule an appointment. The dental office in Chesterfield also proudly serves clients in the surrounding areas: Chesterfield, Creve Coeur, Town & Country, Ballwin, Manchester, Chesterfield Valley, Ladue, Frontenac, and Maryland Heights, Missouri.
