SHANGHAI, SHANGHAI, CHINA, August 30, 2013 /EINPresswire.com/ -- The excitement is arousing in anticipation of Toivon Studio's upcoming update of Kingdom of Pirates – an iOS MMORPG that hit the App Store this month. So soon after the release of version 1.1, another immediate update will be available in the near future. Kingdom of Pirates offers an intriguing storyline, exciting gameplay and innovative ways of multiplayer interaction. The core of the story is the pursuit of Captain Drake's lost treasures. This legendary captain has vanished without a trace, and the world's most notorious pirates have united for an adventurous journey to recover his riches.

Bold notorious pirates have sailed off to seek their dreams – infamy, glory, vengeance, and adventure. The stories of those infamous pirates have become legends. Locke the Caster longs to be notorious. Players start off with him as the first member of their crew. He is a brave adventurer, who used to be Captain Drake's most loyal hand. He feels obliged to recover the Captain's lost treasures. Tate the Furious is looking for glory. When he was young, Vikings worshiped him for his courage. As time went on, everyone forgot about him. He longs to enter a

battle and retain his former glory. Cameron the Vengeful yearns for revenge. He was picked up alongside a river by an Indian chief when he was a kid. After training for many years, he finally became a chief himself. He swore he would protect his home forever, but Spanish explorers had destroyed his home and also kidnapped his wife. The strong desire for revenge makes him determined. Mary the Fiery is the first woman to join the crew. She lived an ordinary life as the wife of a naval officer, but constantly yearned for adventure. One day, she snuck off and joined the crew. Mary is extremely beautiful. In order to get her to join the group, players need to gamble in the Tavern.

For some other pirates, however, misfortune is the one who brought them to the pursuit of Captain Drake's lost treasure. One-Eye the Slasher, for example, was a well-known pirate and has stolen much treasure over the course of his life. Unfortunately, he upset other pirates so much that he was forced to flee to a mysterious island. Evans the Summoner used to be the most famous pirate in the Caribbean. He has a habit of getting himself into trouble frequently. He lost his ship after being betrayed by his friends and was forced to join the group.

Pirates are free men who love adventure. Many pursue their dreams with passion. In Kingdom of Pirates, Ruffins the Bomber; is a merchant who loves to study new technology. He aims to make the most powerful weapon in the world. He joined the group to seek out a blueprint that is rumored to be hidden in Captain Drake's treasure.

All this is only one part of the exciting storyline of Kingdom of Pirates. Not to mention the wonderfully animated battles and treasure maps, and the different innovative ways of multiplayer interaction, such as the Pirate Tourney, the guilds system or the PVP option for pillaging other players.

Kingdom of Pirates 1.1 is available now for FREE [download from iTunes](#). It is advertisement-free and offers in-app purchases. Version 1.2 is expected to hit the AppStore next month.
