

# Personalized Jewelry Maker Punky Jane Celebrates Comic Book Day with Tattle Tales Collection

WOODLAND, CA, USA, September 4, 2013

[/EINPresswire.com/](http://EINPresswire.com/) -- Personalized silver jewelry maker Punky Jane releases [Tattle Tales](#) Collection, allowing customers to infuse their own sentiment on a daily basis with exclusive [write-on/wipe-off](#) designs.

Punky Jane Jewelry, a personalized jewelry company, celebrates National Comic Book Day Sept. 25 with Tattle Tales Collection featuring exclusive write-on/wipe-off designs.

Tattle Tales Necklaces allow the user to write whatever they'd like to convey for the day, whether it's a personal message of inspiration or a humorous outlook on the day ahead, put in temporary print for the world to see. Each speech or thought bubble necklace comes complete with everything the wearer needs to wipe off one message and add another.

The Tattle Tales Collection is among the more than 200 designs in the Punky Jane line. Other designs, including the [Mark Your Calendar](#)™ Collection, feature permanent, handstamped names and dates that commemorate loved ones and special occasions — weddings, birthdays, graduations, and other life milestones.

"I've always loved the comics and I thought this would be a great way to incorporate them into Punky Jane," said founder and self-professed geek Sandy Simpson. "Whether you want to share an inspiring quote or warn family and friends that you woke up on the wrong side of the bed, this is a fun way to share your message."

Simpson launched her stamped silver jewelry company in 2008 after spending 20 years as a graphic designer. She merged her love of typography, graphic design and documenting life's special moments by making her first personalized necklace.

Tattle Tales allow the user to write whatever they'd like to convey, whether it's a personal message of inspiration, a favorite quote, or a stern warning for anyone who passes by.

In the company's early years, jewelry pieces were designed and created in the corner work area in the garage of her Northern California home. Now her company has full reign in a fully equipped studio in a renovated water tower on the family's property.

Although Simpson now has an administrative staff, she is still personally involved with the handcrafting of each piece of jewelry created in her studio. She loves the artistic challenge and the joy that comes when creating new designs.
